CLOUD-MANAGER

Itay Talias, Yagel Pinhas, Dekel Levy

# The Problem

The cloud contains a lot of different and complicated services
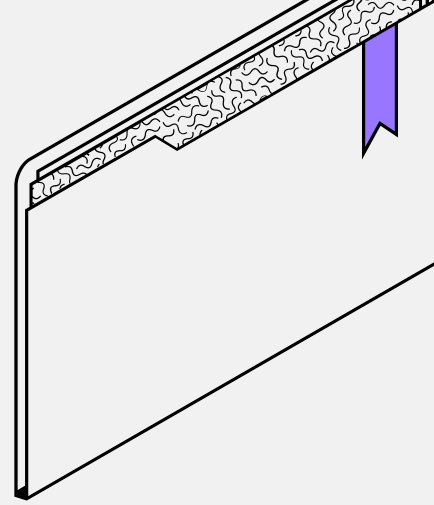

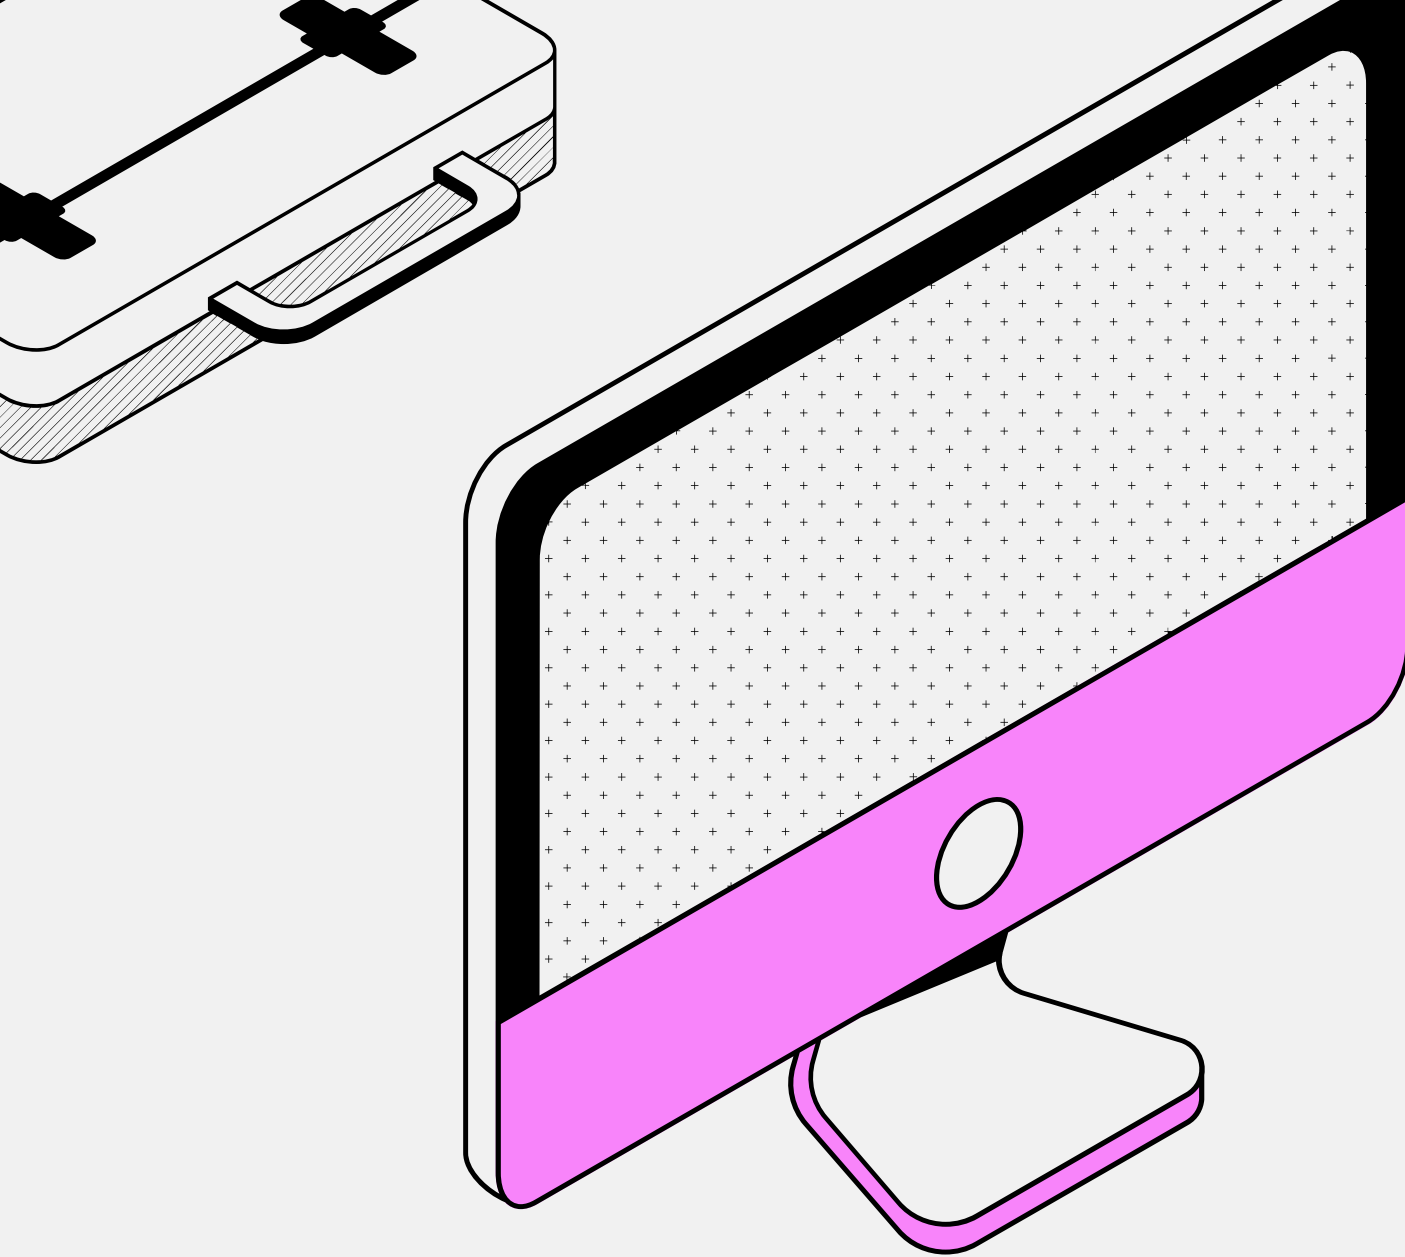

Requires professional guidance
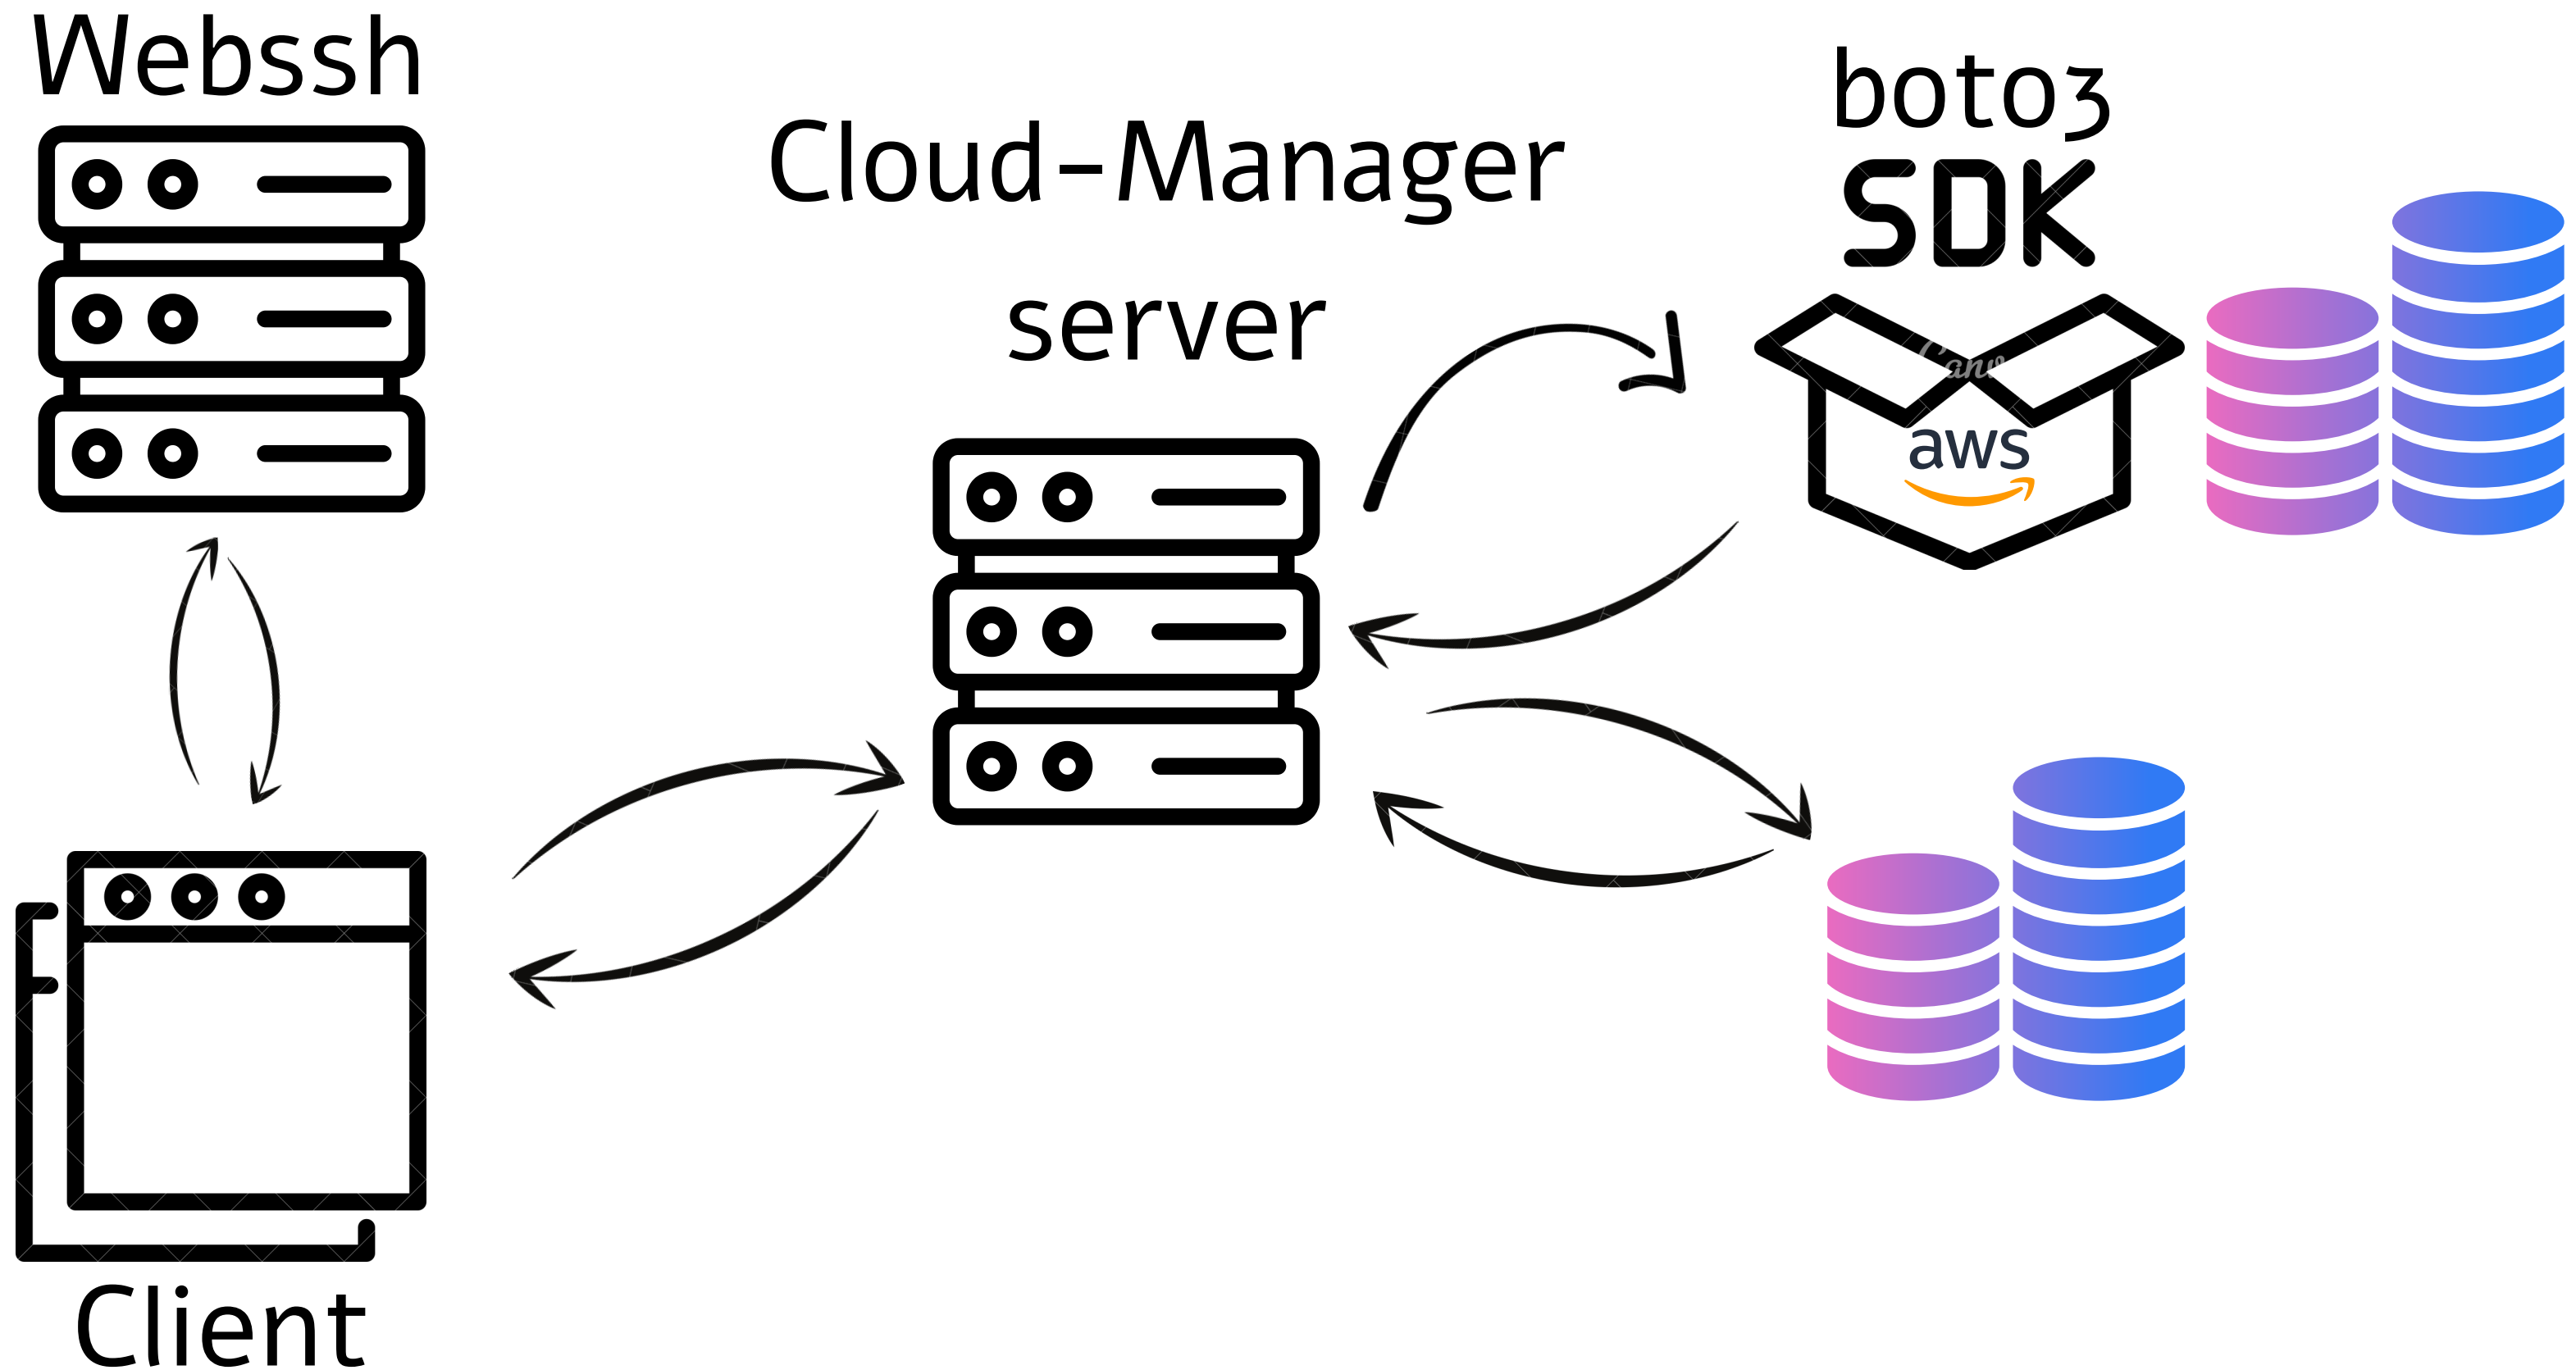

Potential for many problems

The Solution

Cloud-Manager

Live Demo

Milestones

V1 — Visualization of instances

V2 — Filter instances

V3 — operation on instances

V4 — Authentication

V5 — Audit

V6 — SSH Connection to instances

Technology

FRONT/BACK/API Architecture

Webssh

Cloud-Manager server

boto3 SDK
aws

Client

Challenges

Learning a new Technology

Working with branches

intensive schedule
